

OBJECTIVE

This year's seminar will focus on a number of safety related issues confronting the aggregates industry today. All levels of company management are encouraged to attend the seminars to learn insights that will make certain facility operations safer. Attendees will be introduced to the information and tools necessary to protect their personnel, avoid penalty assessments and ensure continued operation of their plants.

WHO SHOULD ATTEND

Anyone involved with the safety and welfare of those working for or with them should attend these sessions. This year's topics cover a wide range of safety related matters that impact everyone in the aggregates industry. This includes senior safety managers, front-line supervisors, hourly workers and independent contractors.

Optional: Portions of the Safety Seminar program can count toward MSHA Annual Refresher Part 46 training!

DOOR PRIZES

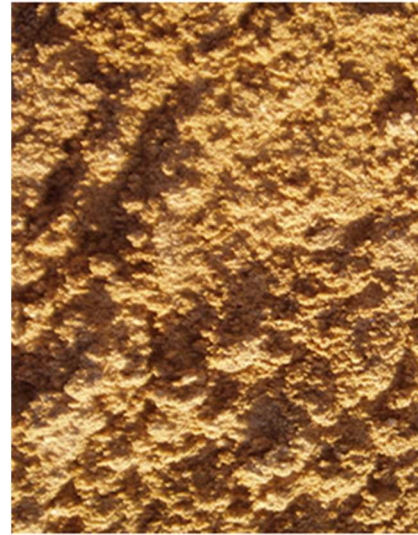

Thanks to the generosity of participating companies, several door prizes will be given away during both seminars.

TOPICS AND ISSUES

2018 VTCA Aggregate Safety Seminars
Roanoke: December 4, 2018 Fredericksburg: December 5, 2018

This year's seminar will offer a wide range of important safety topics. Along with presentations from industry and health care professionals, MSHA and DMM will provide updates as to what's new with the Regulatory Agencies. We will also discuss the numerous safety resources the Division of Mineral Mining (DMM) offers. Additional areas of focus will include safety glass systems, the latest in fall prevention equipment, new development in blasting safety, avoiding equipment operator fatigue and a legal perspective and potentially presentations from health care professionals on what to look for in impaired workers. These topics are of critical importance to mining operators as well as contractors that perform work on MSHA and/or DMME regulated sites. The information you receive will be beneficial in protecting your personnel, avoiding penalty assessments and ensuring the continued and safe running of your operations.

Additionally, there will be an afternoon panel discussion hosted by MSHA, DMM and guest speakers designed to discuss and answer questions related to regulatory and inspection matters.

This Year's Program Will Include:

Registration - Welcome & Introductions

MSHA Update w/MSHA District Personnel

DMM Update - DMM Director

Equipment Safety Glass Systems - Fleet Glass

Fall Protection (tentative)

Updates in Blasting Safety - Austin Powder

Equipment Operator Fatigue - Carter CAT

Narcotics in the Workplace (tentative)

Round Table Discussion - MSHA/DMM/Presenters

Closing Remarks

Morning coffee and refreshments along with lunch will be provided.
