Horizontal Life Lines
New ANSI Standard Z359.14-2014 LE – Leading Edge

This new standard deals with:

- **Sharp Edges**: Edge radius of as sharp as .005
- **Anchoring at your feet**: Gear must be safe for tying off at your feet
- **Shock Pack**: Requires an integral shock-absorber at the workers end
- Requires the use of self-retracting life lines

**Awareness of dangers associated with leading edges is increasing!**

Dual Personal Retractable

Retractable w/ shock pack
