SPRING TRANSPORTATION CONSTRUCTION CONFERENCE & TRADE SHOW

Focused solely on Virginia’s dynamic transportation program and the impact it has on the construction, engineering and aggregate industries, this conference focuses on the challenges and solutions to deliver one of the largest transportation programs in the country. VDOT, Virginia’s localities and the transportation construction industry are in the spotlight to deliver the Commonwealth’s transportation program without hesitation or delays. With emphasis on the future of transportation and the successful delivery of the program, the conference includes multiple technical and business development sessions led by some of the industry’s most experienced leadership. Join us during the conference’s trade show where representatives will be displaying the latest tools, materials and services available to facilitate your success.
