Register Now for the State’s Only Transportation Construction Conference And Trade Show

Join VTCA April 1 – 3 at the Hampton Roads Convention Center for Virginia’s only statewide conference and trade show for transportation contractors, aggregate producers, consultant engineers, material suppliers, and government transportation officials.

Virginia is investing in transportation at a rate not seen in decades. The opportunities for industry growth are as strong as ever. The VTCA Spring Conference will bring into focus the rapidly growing program and the importance of working together to successfully deliver one of the largest transportation programs in the nation.

Virginia’s transportation leaders will share their insights into the Northam administration’s priorities and anticipated changes to program funding. Breakout sessions will be led by some of the industry’s best and most experienced leaders. Showcasing the latest tools, equipment, materials and services available, the trade show will feature over 100 of the industry’s premiere vendors.

• Entertaining and funny, motivational keynote speaker Garrison Wynn will kick off the Conference introducing proven research results on what the most successful do differently. Wynn will leave you itching to get back to your office and move beyond the limitations of traditional “best practices” and set breakthrough objectives to achieve maximum success.

• Virginia’s Secretary of Transportation Shannon Valentine and VDOT Commissioner Stephen Brich, PE will discuss the exciting opportunities new funding brings and the challenges ahead to implement the largest program in VDOT history.

• Jennifer Mitchell, Director of the Department of Rail and Public Transportation, will add to the conversation about building and maintaining Virginia’s maturing intermodal transportation network.

• Breakout sessions include topics such as environmental compliance on VDOT projects, new concepts and ideas in project safety, the latest in Design Build Procurement and Locally Assisted Projects, and the latest initiatives to leverage technology across the industry.

• Aggregate Producers will enjoy sessions focused on mining issues such as the use of drones in aggregate operations, electronic ticketing, the latest MSHA regulations, and a talk with DEQ officials.

A few trade show booths are still available, as are a few Conference sponsorships to promote your company and show your support of Virginia’s transportation industry.

Don’t delay – visit www.vtca.org now to reserve your seat at the best and largest transportation conference in Virginia. Questions? Call VTCA or visit our website.

Dedicated to Advancing the Interests of the Transportation Construction Industries
Transportation Funding Bills Advance

VTCA worked with the Northam administration over the last six months on omnibus transportation funding legislation. HB1414 and SB 890 were introduced as a result of that work.

The legislation, among other things, would increase the gas tax in Virginia by 12 cents a gallon (4 cents a year for three years) and then index the gas tax to the Consumer Price Index (CPI). In addition, fees on alternative fuel vehicles would be increased. Bottom line...these measures, when fully implemented, would generate over $385 million a year in new sustainable funding for transportation projects. The legislation would also provide bonding authority to the Commonwealth for I-81. This would allow the Commonwealth Transportation Board to bond the I-81 revenue we were successful in getting passed in 2019. The bonding package would be worth $800-900 million for construction in the I-81 corridor.

HB 1414 passed the House 56-42. SB 890 was amended to reduce the proposed statewide gas tax increase, BUT increase the regional gas tax with the new revenues staying in the VDOT district in which they were generated. SB 890 passed the Senate 23-17.

The House rejected the Senate bill and vice versa, meaning the differences will be worked out in a conference committee over the next few days. Regardless of the differences in the bills, the prospects for over $385 million a year in new, sustainable transportation revenues remains high.

In addition, we worked to get legislation introduced to create a regional transportation authority for the Richmond metropolitan area. HB 1541 is similar to the authorities we got created for NOVA and Hampton Roads in 2013. HB 1541 passed the House 66-32 and the Senate 25-14. This legislation will raise nearly $200 million a year in new, sustainable transportation revenues for the Richmond area.

Virginia Motorists Lose $9.5 BILLION Per Year On Bad Roads

TRIP Releases Report on Virginia’s Infrastructure

“Virginia Transportation by the Numbers: Meeting the State’s Need for Safe, Smooth and Efficient Mobility” finds that Virginia motorists lose $9.5 billion per year on roadways that are congested, in poor condition, and lack some desirable safety features. In some areas, the cost was pegged at $2,600 per driver.

Other key findings:

- One-third of major roads are in poor or mediocre condition.
- More than 600 bridges (20 feet or more in length) are rated as poor/structurally deficient.
- Travel on state roadways increased by 14 percent from 2000 to 2018 resulting in increased congestion, choking commerce and commutes.
- Traffic crashes in Virginia claimed the lives of 3,875 people between 2014 and 2018. Crashes in which a lack of adequate roadway safety features were likely a contributing factor imposed $2.1 billion in economic costs.
- Current sources of funding will not keep pace with the state’s transportation needs.

“The lack of adequate, sustainable transportation funding in Virginia will lead to increasing deterioration on the state’s roads and bridges and even longer congestion-related delays for commuters, businesses and visitors,” said Will Wilkins, TRIP’s executive director. “Deteriorated, congested roads rob drivers of time and money while reducing the state’s competitive advantage and threatening economic growth. Making investments that will improve the condition and efficiency of Virginia’s transportation system will ensure that the state remains an attractive place to live, visit and do business.”

The full report is online at https://tripnet.org/research-news/?states=virginia.
VDOT Launching New Civil Rights Reporting System

VDOT is introducing a new system for reporting DBE, Davis-Bacon wage rates, and other Civil Rights information. Once the AASHTOWare Civil Rights and Labor (CRL) System is in full production, prime contractors and subcontractors will not have to separately submit the following forms:

- Certified Payroll (WH347)
- C-56 – Certification of Payroll
- C-57 – EEO Requirements
- C-63 – DBE/SWaM Reporting.

The CRL System is web-based software that requires no installation of software on the contractor’s computer other than a web browser. Contractors will need to be granted access to the CRL system by the Department using the ITD-35 and ITD-36 forms.

VDOT will be implementing the new system for use on contracts advertised after March 1, 2020. As the eligible contracts are bid, VDOT Civil Rights will be contacting the apparent low bidders to begin training and guide the contractor through setting up and using the new system.

Additional details regarding the new system and requirements are available on VDOT’s website at https://bit.ly/2VxqZrk.

VDOT Mobile Communication Memo

The new monthly reimbursement amount of $145 (including tablets and cell phone) will replace the $45 (cell phone only) reimbursement for any VDOT project advertised after February 1, 2020. Industry should expect a revision to the memo in the next few weeks that will include guidance on various security requirements.

Call For 2020 TPMI Applications

The University of Virginia’s Center for Transportation Studies, in partnership with the Virginia Department of Transportation and the Virginia Transportation Construction Alliance, is preparing to offer the twelfth annual Transportation Project Management Institute (TPMI) from June 23 – July 2, 2020 in Charlottesville.

The Institute is designed for a cohort of 35 midcareer, emerging leaders from state and local government and industry. Past participants have exclaimed that the Institute provided them with a unique opportunity to develop their skills, while establishing strong relationships that have benefitted their professional careers. To learn more about the Institute, please visit http://bit.ly/TPMI2020.

A particular benefit for private sector participants is the opportunity to gain direct experience with the VDOT project management process, while navigating the Program alongside other industry and Department emerging leaders.
VTCA’s ECLC And ALC Operating Policy Improvements

At its February meeting, the VTCA Board of Directors adopted recommended improvements to the operating policies of both the Associate Leadership Committee (ALC) and the Engineering Consultant Leadership Committee (ECLC). With the adoption of the revised policies, each committee believes that they will not only improve their daily operations, but will better represent their respective memberships, as well as the Alliance overall.

Each committee revised how new members will be elected to their respective rosters. They will both solicit nominations from their respective membership categories, develop a ballot consisting of those nominees, and vote by simple majority to fill the annual vacancies. In efforts to promote a diversification of member representation and foster new ideas and actions, each committee has new guidelines by which to vet their nominees in their own ways:

- The ECLC will consider location, size, services offered, SWaM/DBE status, and the like.
- Solely for the purposes of voting and establishing committee representation, the ALC consolidated its twelve membership categories into four broader areas of expertise, and added an At-Large seat:
  - Support Services
  - Expert Services
  - Equipment Suppliers
  - Materials and Products
  - At-Large

Each year, the balloting process will present one individual from each of these four categories to serve a three-year term, and one At-Large individual to serve a two-year term. Please note that member firms will still be listed across the twelve membership categories and have the opportunity to advertise in and among these categories.

VTCA’s Jeff Bragdon is the staff liaison to both of these committees. Please reach out to Jeff should you have questions. His email is bragdon@vtca.org.

Engineering Consultant Leadership Committee Elections

The ECLC will soon begin the annual cycle to replace three committee members whose terms expire July 1. Nomination packages will be sent electronically to all VTCA Engineering Consultant members. Each member company will be afforded up to three nominations each; these are due by April 17.

VTCA will contact the successful nominees and request a short bio from each. Bios will be due by May 1, to share with the current ECLC for consideration. Upon review of the bios, the ECLC will convene for a special session to vet and vote on all candidates. The newly elected representatives will be announced in early June, with their terms starting in July.

If you have any questions regarding the ballot or the ECLC, please contact Jeff Bragdon.

Associate Leadership Committee Welcomes New Members

The following industry leaders were elected to serve on the Associate Leadership Committee:

Tim Tharpe, J.R. Tharpe Trucking Company
John Grantier, James River Equipment, Inc.
Brett Marston, Gentry Locke
Marie Derby, Argos-US

We are grateful for the service of those who rotated off of the ALC:
Don Ingrassano, Roanoke Cement/Titan Virginia Ready Mix
Bobby O’Brien, Lynchburg Ready-Mix Concrete Company

For the current ALC roster, visit https://bit.ly/2whQSAs.
2020 Mid-Atlantic Quality Assurance Workshop A Great Success

VDOT successfully hosted the 53rd Mid-Atlantic Quality Assurance Workshop February 11-13 in Williamsburg. Over 370 industry, state DOT and local DOT representatives attended. VTCA Aggregate Producer members played a significant role in this year’s QAW. Along with assisting with the planning of the event, VTCA members gave four presentations, on Inverted Pavements, Chemical Soil Stabilization, Use of #10 Screenings as Embankment and Fill Material, and Aggregate Fines and Manufactured Sand in Ready Mix Concrete.

The VTCA Inverted Pavement presentation was given by Professor Wynand Steyn. Professor Steyn is Head of the Department of Civil Engineering at the University of Pretoria, focusing on road pavement related subjects.

We would like to give special thanks to David Abernathy, Abernathy Construction, for assisting with the #10 Screenings as Embankment and Fill Material presentation. David provided a contractor’s perspective on the benefits of utilizing these materials on their Atlee Road project in Richmond.

The workshop had many other great presentations. These presentations will be available soon at: http://midatlanticqaw.com/presentations.html.

Lunchbox Seminars Return

Luck Stone and the Aggregate Operations Committee hosted a Lunchbox Seminar on February 27th at Luck Stone’s Training and Technical Center in Richmond. Lunchbox Seminars provide presentations on technical information pertaining to aggregate operations at the plant level. This Lunchbox Seminar included presentations from Alf Basson of Paschal Associates on manganese maintenance and from Aeron Atwell, John Veon and Vaughan Wilburn of Quality Conveyor Solutions on conveyor belts. Fastenal also brought in their demonstration trailer to give attendees hands-on experience with belt cutting and splicing. Over 20 plant personnel from six VTCA aggregate members attended the seminar. Keep a look out for future Lunchbox Seminars!

CMA Certification Classes Scheduled

The Community College Workforce Alliance has scheduled two Central Mix Aggregate Certification classes. The first is scheduled for March 10-12 in Richmond and the second is scheduled for April 14-16 in Roanoke.

Contact CCWA for more information and to register for the classes. https://ccwatraining.org/vdot/.

Spring Smoke Schools Scheduled

The Spring Visual Emissions Certification, (Spring Smoke) have been scheduled:

Richmond: March 10 at Luck Stone - Rockville Plant
Roanoke: March 11 at Boxley - Blue Ridge Office
Abingdon: March 14 at W-L - Glade Spring Quarry.

Registration is available for the Spring Smoke Schools at https://www.vtca.org/events/.
VTCA Scholarships Now Accepting Applications

**Associate Trade and Technical Training Scholarship Program** (Available to VTCA member company employees and dependents)

This scholarship program is sponsored by the Associate membership of the Virginia Transportation Construction Alliance and Marsh & McLennan Agency. To be eligible, the applicant must be an employee of a VTCA member firm or a dependent of an employee of a VTCA member firm. The program provides support to individuals pursuing a certificate or a degree in the construction related trades. Awards of up to $1,500 are available to successful applicants. Deadline is May 29, 2020.

**James G. Browder, Jr. Memorial Scholarship Program** (Available to Anyone)

This scholarship program is sponsored by the VTCA Engineering Consultant membership. The scholarship provides support to students pursuing a degree in Civil Engineering, Structural Engineering, Environmental Engineering or Construction Management in a institution of higher learning. Deadline is May 7, 2020.

**Aggregate Scholarship Program** (Available to Anyone)

This scholarship program is sponsored by the VTCA Aggregate membership. The scholarship provides support to rising sophomores or juniors pursuing an undergraduate degree in one of the following areas: Civil Engineering, Construction Management, Geology or Mining and Mineral Engineering in a Virginia institution of higher learning. The amount of the scholarship is up to $1,500. Deadline is April 16, 2020.

**Contractor Scholarship Program** (Available to VTCA member company dependents, employees and spouses)

This scholarship program is sponsored by the VTCA Contractor membership. The scholarship provides support to dependent children, employees or spouses of those working for VTCA member companies who are pursuing an undergraduate degree in a Virginia institution of higher learning. The amount of the scholarship is up to $4,000. Deadline is May 7, 2020.

Information and packages for all of the scholarships can be found on VTCA’s web site at [www.vtca.org/resources/scholarships/](http://www.vtca.org/resources/scholarships/).

A Note From One Recipient Of The Phillip P. Tarsovich Scholarship

“I am honored to be a recipient of the Phillip P. Tarsovich Scholarship for the 2019-2020 school year. Without the support of your scholarship, I wouldn’t be able to take advantage of the wonderful opportunities I have been offered. My classes are offering me hands-on learning that takes creativity in business to a whole new level of excitement. Thank you for investing in me and the VCU School of Business.”

---

Memorial Scholarships Available For Children Of Disabled Or Killed Highway Workers

Each year, children of highway workers killed or permanently disabled on the job have access to scholarships offered by the American Road & Transportation Builders Association Transportation. The Lanford Family Highway Worker Memorial Scholarship Program, launched in 1999 through a generous gift from Jack and Stan Lanford of Lanford Brothers Company, aids students pursuing undergraduate and graduate courses as well as technical training.

Applications are now being accepted for the 2020-21 scholarship program. Applications are due by April 17 and can be found online at [www.artbatdf.org](http://www.artbatdf.org).

Eligible students must attend a post-secondary institution of learning that requires a high school diploma or its equivalent. This could include any public or private four-year accredited college or university; two-year accredited college; or vocational technical college or training institution. M.B.A. candidates and master’s degree students in civil engineering, construction management and other construction-related programs will also be considered. Scholarships have a value up to $5,000.

For more information, or if you have a lead on a student who might be eligible, contact ARTBA’s Melanie Laird at [mlaird@artba.org](mailto:mlaird@artba.org) or 202-289-1029.
National Work Zone Awareness Week Is
April 20 - 24

Make plans now to spread the word about National Work Zone Awareness Week. This annual spring campaign, held at the start of construction season, encourages safe driving through highway work zones.

Set for April 20 – 24, this year’s theme is Safe Work Zones for All: Protect workers. Protect road users. It features a poster reminiscent of the World War II poster with Rosie the Riveter. The poster is available for download in PDF format at https://go.aws/2T5PM3Y. To order print copies of the poster, please contact Melanie Laird, mlaird@artba.org.

This year’s kickoff is hosted by the Michigan Department of Transportation and will be held in Ypsilanti on April 21. Michigan designed the poster as a reflection of its industrial heritage. Original “Rosies” worked as riveters in an aircraft factory in Ypsilanti that built B24 bombers.

A wealth of resources you can use to help promote work zone safety can be found online at http://www.nwzaw.org/.

April Is Distracted Driving Awareness Month

Every day, at least nine people die and 1,000 are injured in distracted driving crashes. Transportation incidents are the number one killer of employees in the workplace. Cell phones, touchscreens, voice commands . . . consequences of those distractions can be fatal.

Distracted Driving Awareness Month in is a united effort to recognize the dangers of and eliminate preventable deaths from distracted driving. Ignore the distractions and #justdrive.

For more resources to promote Distracted Driving Awareness Month are available from the National Safety Council at https://bit.ly/2T8HJNq.

Top 10 Defensive Driving Strategies Webinar

Our friends at DRIVE SMART Virginia are pleased to present a webinar for Distracted Driving Awareness Month featuring special guest speaker John Meola. This webinar will appeal to safety and risk managers, and drivers alike. This is a wonderful training tool for companies and organizations to use to update and refresh drivers on safe driving skills. If you are looking to enhance your safety programming, this is a perfect opportunity to learn from one of the industry’s best! More information is online at https://bit.ly/2VvBQlf.
Member News

*Carter Machinery*, a leading Caterpillar dealer, announced an agreement to acquire the assets of Baltimore-based Alban Tractor Company effective February 4, 2020. In connection with the acquisition, Carter Machinery will become the Cat dealer in an expanded service territory that will now include Northern Virginia, Washington D.C., Maryland and Delaware. The acquisition will strengthen Carter’s position as an equipment leader in key industries, including construction, mining, aggregates, and forestry, as well as expand upon its market leadership in key growth areas such as rental and power generation.

“Carter’s growth is evidence of the caliber of our employees’ expertise and the speed at which they service the industry to ensure customer success every day,” said Drew Parker, CEO, Carter Machinery. “Carter is enthused about expanding our services to more customers with the same commitment that our Virginia and West Virginia customers have come to rely upon.”

In addition to Cat® equipment, Carter also supports more than 70 world-class brands. The company will begin customer outreach immediately to ensure seamless transitions and uninterrupted service. Learn more at [www.cartermachinery.com](http://www.cartermachinery.com).

*WBCM* is excited to announce the opening of its second office in the Commonwealth of Virginia. Located in Lexington, the new office accommodates the firm’s growing regional influence and will allow WBCM to better serve the Shenandoah Valley and the I-81 and I-64 corridors. The new address is 203 South Main Street, Lexington, VA 24450.

WBCM is equally pleased to announce the addition of Thomas Marando, Jr., PE, as Director, Virginia Transportation. In this new role, he will work with James Holls, PE, PTOE, WBCM’s Regional Director of Transportation, to help grow Virginia operations. Marando will be responsible for business development, project management, technical oversight, and quality control. He has nearly 20 years of experience as a Highway Engineer and Project Manager for various multi-modal projects throughout Virginia. Most recently, Marando served as the Assistant Location and Design Engineer for the Virginia Department of Transportation’s Staunton District. He received his Bachelor’s and Master’s degrees in Civil Engineering from the University of Delaware and is currently a registered Professional Engineer in Virginia, Maryland, and Delaware.

*Volkert, Inc.* welcomes Jeff Cutteright, PE, as the MidAtlantic Region’s Director of Municipal & Highway Engineering. He replaces Bobby Hester, PE, recently promoted to the MidAtlantic’s Chief Engineer. Jeff spent 35 years at VDOT where he served in various roles, including Assistant State L&D Engineer, Project Management Office Director, and Program Manager for the Design and Special Projects group. His career has included design of urban and rural roadways, interchanges and interstates; and the management of large studies, including the Hampton Roads Third Crossing, Hampton Roads Bridge Tunnel Expansion feasibility study, and the I-64 Environmental Impact Study from Richmond to Norfolk. He also served as VDOT coordinator for the Transportation Project Management Institute held at the University of Virginia. Jeff earned his B.S. in civil engineering from Old Dominion University. He can be reached at Jeff.cutright@volkert.com.

**Marketer Of The Year 2020**

VTCA would like to congratulate Emily Ripka, Business Development & Marketing Manager of *NXL, a Division of Century Engineering, Inc.* for being recognized by the Society of Marketing Professional Services (SMPS) Virginia as “Marketer of the Year.” Emily has been a member of SMPS Virginia for nearly a decade, serving as a volunteer member and chair on numerous committees. She was the Annual Conference Chair for two years, responsible for planning and implementation of the Chapter’s largest educational event, and was the Chapter President 2018-2019. Emily now serves as Immediate Past President on the Board and will continue to guide the Chapter as a member of the Past Presidents Advisory Committee.

The Marketer of the Year award honors personal achievement and recognizes a member’s extraordinary leadership and contribution to their firm’s marketing success. The Marketer of the Year demonstrates significant accomplishments in the areas of Strategic Planning and Research, Business Development, Management, Communications, Innovation, Education and Training, and Service to the Profession.
In Memoriam: Jack Lanford

Our transportation construction family lost a gifted and respected leader when John C. “Jack” Lanford passed away on February 21 after a period of declining health. Jack was 89. Jack and his brother Stan founded Lanford Brothers Company in 1960 in Roanoke, Virginia. Funeral services were held on February 27 in Roanoke.

Jack attended William Fleming High School in Roanoke and received a football scholarship to attend Virginia Military Institute (VMI). He received an engineering degree from VMI in 1952 and served as an officer in the United States Army Corps of Engineers during the Korean conflict. Jack joined his father’s construction firm in 1953. Upon the death of their father, Jack and Stan took over the company, changing its name to Lanford Brothers Company in 1960. In 1985 they brought on interest in Adams Construction Company, where Jack served as CEO until his retirement in 2006.

Jack served as president of the Virginia Road and Transportation Builders Association in 1977 and as president of the Contractors’ Division of the American Road and Transportation Builders Association in 1981. In 1991, he served as chairman of ARTBA.

Jack served in many more industry leadership positions, and his accomplishments were many. We invite you to read his full obituary at https://bit.ly/389jysS.

Thanks To Timmons For 25 Years Of Membership

In March of 1995, J. K. Timmons & Associates signed on to support the work of the Virginia Road and Transportation Builders Association. While our names have changed, 25 years later Timmons remains committed to promoting the growth and improvement of Virginia’s transportation construction program.

A tip of the hard hat to Timmons, with our deepest thanks for 25 years of membership.

Jan Morehead Celebrates 31 Years Of Service

Thirty-one years ago, Stan Lanford was outgoing President of the Virginia Road and Transportation Builders Association. Gary Massie was the incoming President. Working with the executive team and the Board of Directors, they recommended the hiring of Jan Morehead to serve as Director of Administration and Public Relations.

Thirty-one years later, Jan continues to serve our Alliance and the membership with dedication and enthusiasm. She has served as lobbyist, accountant, ambassador, office manager, meeting planner, and much more. Jan is a virtual encyclopedia of all things related to these past decades of our association’s growth. Now working part-time, Jan remains an important ingredient to our success and we are thankful for her service.

Summer Internship Sought By Aspiring Geologist

Geosciences major at Virginia Tech is seeking a summer internship. Minoring in Green Engineering and Crops and Soils Environmental Science. Particularly interested in site remediation or resource extraction. Desires to gain laboratory and fieldwork experience. For a copy of this resume, please contact kayla@vtca.org.

“The Hilliard” Golf Tourney Set For April 24

The Hilliard Charity Fellowship Outing is celebrating its 27th year! Since 1994, this event has raised $450,000 to support more than 250 charitable causes and 50 scholarships for those in our construction community.

Three courses will host golfers - Bowling Green Country Club North and South, and Shenandoah Country Club. All the details are here: http://bit.ly/HilliardSpring19. You can also find the Hilliard Charity Fellowship Outing on Facebook!

We look forward to seeing YOU there!
